

Our Mission

To provide and maintain a foundation for the successful growth of Professional Process Servers in the State of Colorado, by practicing exceptional standards of business ethics and through education.

We will do this by:

- 1. Becoming the primary source of communication for members and non-members regarding legislative proposals and legislative change pertaining to service of process in the State of Colorado.**
- 2. Establishing professional standards, a code of conduct and business ethics, that reflect and mirror honorably the judicial system for which we are a part. To be the vehicle for change in shaping legislation regarding our industry.**
- 3. Providing a forum for process servers to exchange ideas for protection and growth in our profession and businesses.**
